## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 8, 2007 has been entered.
2. Claims 7 and 18 are amended. Claims 2 and 7-26 are pending.

### *Double Patenting*

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claim2, 7-12 and 18-20 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 2, 5-10, 12 and 18-21 of U.S. Patent No.

Art Unit: 2874

6,883,978. Although the conflicting claims are not identical, they are not patentably distinct from each other because the Patent claims all of the limitations of the claims 2, 7-12 and 18-20 except for a metallized optical fiber. However, the Patent claims bonding a fiber to a metallic fiber mount pad using metallic solder. It was well known in the art to utilize a metallized fiber to enhance adhesion of solder between an optical fiber and a metallic mount pad. Therefore, it would have been obvious to claim a metallized optical fiber for the purpose of enhancing adhesion of solder between the optical fiber and the metallic mount pad of the Patent. Furthermore, method claims render obvious the device since the method recites the structural features of the corresponding device.

***Allowable Subject Matter***

5. Claims 13-17 and 21-26 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: see Applicant's response pages 10-14.
